

CALL FOR PAPERS

Inconsistency and Incompleteness in Databases

International Workshop Collocated with EDBT 2006

March 26, 2006, Munich, Germany

KEY DATES

Dec 18, 2005	Paper submission
Jan 25, 2006	Author notification
Feb 15, 2006	Camera ready paper
March 26, 2006	Workshop

URLs

ORGANIZATION COMMITTEE

Jan Chomicki, U at Buffalo, USA
Jef Wijsen, U of Mons-Hainaut, BEL

PROGRAM COMMITTEE

Marcelo Arenas, PUC Chile, CHL
Ofer Arieli, Academic College of Tel-Aviv, ISR
Leopoldo Bertossi, Carleton U, CAN
Patrick Bosc, IRISA/ENSSAT, FRA
Andrea Cali, Free U of Bozen-Bolzano, ITA
Nilesh Dalvi, U of Washington, USA
Thomas Eiter, Vienna U of Technology, AUT
Wenfei Fan, U of Edinburgh, GBR & Bell Labs, USA
Enrico Franconi, Free U of Bozen-Bolzano, ITA
Ariel Fuxman, U of Toronto, CAN
Gösta Grahne, Concordia U, CAN
Sergio Greco, U of Calabria, ITA
Maurizio Lenzerini, U of Rome "La Sapienza", ITA
Jerzy Marcinkowski, Wroclaw U, POL
V.S. Subrahmanian, U of Maryland, USA

The goal of this workshop is to bring together database researchers working on inconsistency, incompleteness, and uncertainty to review recent progress and outline future research directions. The focus of the workshop will be primarily on semantic and computational issues arising in the representation and querying of inconsistent, incomplete, and uncertain databases.

TOPICS OF INTEREST

- database repairing
- consistent query answering
- conflicts in data integration
- logical approaches to inconsistency
- data exchange
- representing and querying incomplete information
- Open/Closed World Assumption
- epistemic/modal logic frameworks
- uncertainty in databases
- probabilistic databases
- fuzzy databases
- error-tolerant agents
- exceptions
- argumentation-based frameworks

PUBLICATION

Post-conference proceedings will be published by Springer-Verlag in the series Lecture Notes in Computer Science.

SUBMISSION GUIDELINES

Workshop submissions must be in electronic form using Portable Document Format (.pdf). Papers should be formatted according to the Springer-Verlag LaTeX2e style lncs for Lecture Notes in Computer Science. The length should not exceed 15 pages.

FURTHER INFORMATION

Full details can be found at <http://www.umh.ac.be/iidb/>
